

Sustainable Public Procurement

A snapshot of international best practices

Liesbeth Casier
May 2017

ISO 20400:2017

Standard on Sustainable Procurement

- First international standard for sustainable procurement!
- About integrating sustainability in policies, strategies, processes
- About defining principles of sustainable procurement (transparency, accountability, respect for human rights and ethical behavior)

European Union

Product Criteria for main areas of public spending

www.procurement-forum.eu

China

Monetizing the benefits of GPP in China

- To make the business case for GPP / SPP
- To prioritize where to start
- To monitor and communicate progress

South Africa

Procurement of innovation to implement Sustainable Public Procurement

- Incorporation of Public Procurement in Western Cape Green Economy Framework
- GPP Criteria for major spending categories in the City of CapeTown
- Innovative procurement of nature-based solutions in the Western Cape
- Performance-based procurement

The Netherlands

CO₂ ladder and DuboCalc

- Tools that incentivize suppliers to improve low-carbon performance
- Tools to assist public procurers in evaluating bids

Costa Rica

National Sustainable Public Procurement Policy

In 2015 Costa Rica formally adopted, per executive order, a **National Sustainable Public Procurement Policy** and the Creation of the National Steering Committee on Sustainable Procurement.

The **Steering Committee** is composed of the Ministry of Finance (chair), the Ministry of Environment and Energy, the Ministry of Labour and Social Security and the Ministry of Economy, Trade and Industry.

The Committee is responsible for the **implementation** of the policy, which focuses on how to promote, through the purchasing power of the State, the production of environmentally and socially responsible goods and services through innovation and improved economic performance.

Bhutan

GPP Knowledge Platform to train civil servants

Welcome to GPP-RIM, Knowledge Platform

Green Public Procurement in Bhutan, a knowledge platform is dedicated to disseminate the information and training related to green procurement. The GPP course will walk you through the process of making the procurement and transaction in a greener way.
